Actively involved in self-directed web development, I specialize in crafting intricate applications with expertise in HTML, CSS, JavaScript, TypeScript, and React and Redux Toolkit. My commitment to ongoing skill enhancement drives my enthusiasm for embracing fresh challenges in the field.

---

## WORK EXPERIENCE

### Frontend Developer

June 2023 –

P&M solutions Bt., Debrecen

- While I lack formal experience, I have actively engaged in creating test projects independently for the company. These initiatives showcase my practical skills in developing websites and applications using technologies like React JS

### Customer Success Manager

October 2022 -

Webwise Hungary Kft., Debrecen

- At Syncee - Global Dropshipping, I specialize in providing technical support to clients. My role includes onboarding, training, and addressing inquiries to ensure clients effectively navigate and optimize our dropshipping platform. I collaborate with cross-functional teams to integrate client feedback for ongoing product and service enhancement, contributing to a seamless technical experience for customers.

### Marketing assistant

July 2021 – October 2021

Gazdafi Electronic Kft., Debrecen

- I played a fundamental supporting role in market research, content creation, sales, product management, data analysis, event planning, customer service and digital marketing activities. I was an integral part of the team, contributing to the marketing success of the company or organization.

### HDL1

March 2020 – March 2021

Magyar Telekom Nyrt.

- My primary responsibilities included providing frontline technical support to end-users. I effectively addressed and resolved IT-related issues, offering timely assistance and guidance to ensure the smooth operation of computer systems and applications. This role involved troubleshooting hardware and software problems, documenting support interactions, and escalating issues when necessary.

## STUDIES

---
